Core Values

Integrity

We operate with honesty, transparency, and ethical conduct in everything we do. Our word is our bond.

Excellence

Whether we are interacting with clients, partners, or our staff, we uphold strong moral principles and deliver on our promises—without compromise.

Quality

Our clients are at the heart of our business. We listen. We personalize our services to meet your unique needs. We view every client relationship as a long-term partnership.

Reliability

Time is valuable—for you and for us. That's why we guarantee punctuality, consistency, and dependability in every engagement. When you schedule us, we show up. When we promise a result, we deliver it.

Our Services

VIP HACKS (Hygienic And Cleaning Services)

is a proudly South African cleaning and hygiene solutions company committed to redefining cleanliness in both domestic and commercial environments. Born out of a passion for order, precision, and wellness, VIP HACKS delivers top-tier cleaning solutions that go beyond surface-level results. We believe a clean environment is a healthy environment — and that excellence in hygiene promotes better living and working.

Our foundation is built on uncompromising service quality, ethical business practices, and a customer-first mindset. From single-room cleanups to large-scale corporate sanitation projects, we approach every job with the same dedication and attention to detail.

Commercial Cleaning

- Office Cleaning
- Retail Space Cleaning
- Industrial Cleaning
- Property Development Sites (pre- & post-construction)

Residential Cleaning

- Deep Home Cleaning
- Spring Cleaning
- Post-occupational Cleaning
- Carpet & Upholstery Cleaning

Why Choose VIP HACKS?

Professionally Trained Staff

Fully Insured & Compliant

Flexible Scheduling & Customized Plans

Environmentally Safe Products

Competitive Pricing

High Customer Satisfaction Rate

Choosing a cleaning service provider is not just about cost — it's about trust, consistency, safety, and results. At VIP HACKS (Hygienic And Cleaning Services), we don't just clean — we protect your environment, your brand image, and your peace of mind.

Our cleaning technicians undergo continuous training to meet high industry standards. They're not just skilled — they're also uniformed, vetted, and coached in customer service, safety, and hygiene best practices.

No two spaces are the same. That's why we offer customized cleaning schedules and packages based on your environment, foot traffic, and business type — whether it's a medical clinic, retail space, industrial site, or home.

We utilize modern tools, high-efficiency equipment, and eco-conscious cleaning agents. This ensures faster service, deeper cleaning, and a smaller environmental footprint — without compromising on hygiene.

Need cleaning after hours, on weekends, or during emergencies? We operate on a flexible service model, allowing you to schedule one-time, periodic, or daily cleaning — on your terms.

Industries We Serve

VIP HACKS has the expertise and flexibility to service clients across a wide range of sectors, each with unique cleaning standards and compliance needs.

Corporate & Office Parks

Daily or weekly cleaning, sanitation, and disinfection to maintain professional workspaces.

Medical & Healthcare Facilities

Clinic and hospital-grade sanitation and infection control cleaning.

Retail & Shopping Centers

Glass, floors, display areas, and food court sanitation for high-foot-traffic zones.

Residential Complexes & Homes

Move-in/out deep cleaning, post-renovation cleaning, and routine maintenance.

Construction & Industrial Sites

Rubble removal, post-construction cleaning, and high-pressure washing.

Our Process: How We Work

Step-by-Step Cleaning Framework:

We operate with a strong commitment to health, safety, and sustainability — for our clients, staff, and the planet. All cleaning products are SABs-approved and safe for use in sensitive environments. Our staff is trained in Occupational Health & Safety (OHS) regulations. We enforce proper PPE usage and incident reporting protocols.

Site Inspection & Needs Assessment

We evaluate your premises and discuss your unique hygiene requirements.

Customized Proposal & Quotation

A tailored plan is presented based on your needs, frequency, and industry standards.

Scheduling & Onboarding

Once approved, a dedicated cleaning team is assigned and scheduled at your convenience.

Execution With Quality Control

We clean, sanitize, and maintain with precision. A supervisor conducts random checks for consistent quality.
